| Hit to the left side/Hit to the right side | D-Pad Left/Right |

TOTAL CONTROL BATTING™

Before the ball is pitched:

- Press L2 + D-Pad to guess a pitch location.
- Press L2 + ○, △, □, or ⊗ to guess a pitch type.

Note: When L2 is held, the batter and pitcher are unable to perform.

If you guess the pitch location, a flashing yellow and red Lock-on indicator will appear, giving you a better chance at making pure contact with the ball.

| | |
|------------------------|---|
| Pitch Type | Correct guess - Bigger batting cursor Incorrect guess - Smaller batting cursor |
| Pitch Location | Correct guess - Yellow Lock-on indicator appears Incorrect guess - Smaller batting cursor |
| Type + Location | Correct guess - Lock-on indicator blinks rapidly + extra power Incorrect guess - Smallest batting cursor |

PITCH HISTORY BOX

Before a pitch is thrown, press and hold L2 to display the pitch locations, number of pitches and pitch types previously thrown to the batter. Until the first pitch is thrown in a new at-bat, the Pitch History Box will display the pitches thrown during the last at-bat.

BASE RUNNING

| Rob a Home Run | When near the wall, press Ⓜ |
| Throw to cut-off man | R1 |

TOTAL CONTROL FIELDING™

Press and hold L2 when a ground ball approaches a fielder. Total Control Fielding will automatically cause your fielder to make a special catch (e.g., bare-handed grab) and throw the ball to the appropriate base.

989 Sports' Tip: Press Ⓜ on defense for a burst of speed to get to the ball quickly.

PITCHING

| | |
|-----------------------|---------------|
| Select pitch type | Ⓐ, Ⓝ, Ⓛ, or Ⓞ |
| Pitch ball | ⓧ |
| Adjust pitch location | D-Pad |
| Adjust view | SELECT button |

989 Sports' Tips:

When playing against the computer, vary your pitch type, location and speed on every pitch to keep the batter guessing.

Also, hold the pitch button longer for more pitch speed. Be aware that this will use up more of a pitcher's energy and stamina.

PICK OFF

After selecting a pitch, pick off base runners using the following controls:

| | |
|--------------------------------|---------|
| Pick off to 1st, 2nd, 3rd | Ⓐ, Ⓝ, Ⓛ |
| Adjust infielders, outfielders | R1, R2 |

Pregame Setup

ROSTERS

Use Rosters to make changes to a team's personnel. You can create position players and pitchers and add them to team rosters or set up trades of individual players and Free Agents.

Note: Any change to your roster will alter your team's lineup. Be sure to check your lineup after a roster move to reconcile any changes to it.

TRADE PLAYERS

Trade for a player that can help bring your team to the next level. Trading players can be done on a one-for-one basis or by equalling the trade value of selected players from one team by choosing more than one player from another team.

- D-Pad Left/Right to select the team from which you would like to make a trade.
- D-Pad Up/Down to select the player(s) to be traded and press \otimes to mark him. View his trade value below each team's roster.
- Press \square to switch sides and select another team for the trade.
- D-Pad Left/Right to select the team to which you would like to trade.
- D-Pad Up/Down to select a player(s) to trade for and press \otimes to mark him.
- Press \square to make the trade and then press \otimes to complete the transaction.

CREATE PLAYER

Create the ultimate baseball player. You not only can setup a player's athletic ability, but his physical makeup as well. A created player enters the Free Agent pool where he then can be picked up in a trade. You can create up to 24 players. There is 236 points to distribute among your player's categories.

- D-Pad Left/Right to select a player.
- D-Pad Up/Down from the Name categories to highlight a name option.
- Press \square to edit the name and bring up the alphanumeric chart.
- Use the D-Pad to highlight a letter or number and press \otimes to enter it. To delete a letter or number, highlight the back arrow and press \otimes .
- Spell out a name and press \triangle to exit the chart.
- Press \square to enter the player Attributes.
- D-Pad Up/Down to any player attribute then D-Pad Left/Right to make a selection.
- Press \square to alter your player's abilities.

Note: At this point, you can press \square to return to the Name category or \triangle to return to the Attributes category.

- D-Pad Up/Down to choose a player ability.
- D-Pad Left/Right to make a selection or to raise/lower the ability levels.
- When altering the physical abilities of your player, you will have 236 points to distribute among the 7 categories.

Note: When creating a player in Spring Training Mode you will only have 7 points available.

- Press \otimes to create your prospect and bring up the Trade Rookie screen.

If you are creating a pitching prospect, from the ability categories on the right part of the screen:

- Press \square to alter your player's pitching attributes.
- D-Pad Up/Down to choose a pitcher attribute.
- D-Pad Left/Right to make a selection or raise/lower the attribute levels of your player.
- Press \otimes to create your pitcher and place him into the Free Agent pool.

DRAFT

Players are drafted at 10 pitching positions and 15 fielding positions. You can manually draft each position or have the computer hold an auto draft by pressing \textcircled{O} . The draft will go 25 rounds.

Note: During the draft, you have 60 seconds in Rookie mode, 40 in Veteran mode and 20 in All Star mode to make a pick. If the timer expires, the computer will draft for you.

- D-Pad Up/Down to select Team 1.
- D-Pad Left/Right then Up/Down to select Team 2.
- To randomly pick teams press \textcircled{O} ; otherwise, press \textcircled{X} to continue.
- D-Pad Left/Right to designate your controller to a team.
- D-Pad Up/Down to select a salary cap limit and press \textcircled{X} to continue.
- Press \textcircled{O} to shuffle the draft order.
- Press \textcircled{X} to start the draft.

During the draft:

- D-Pad Left/Right to draft from the different positions.
- D-Pad Up/Down to highlight an available player and press \textcircled{X} to select him.
- Press \textcircled{O} during the draft to review your picks.
- Continue this process until the draft is complete. At any time during the draft, press \textcircled{O} to have the CPU hold an Auto Draft.
- When the draft is complete, D-Pad Left/Right to view the rosters of each team.
- Press \textcircled{X} to accept the rosters or \textcircled{A} to reject them.

FREE AGENTS

- D-Pad Up/Down to select a difficulty level. In a one-player game, the computer's team will automatically play at the same level as your team.
- Press  to create Login User Names. See Create Users.
- Press  to cycle through available user names and assign a user to each team.
- Press  to bring up the Batting Cursor option.
- D-Pad Up/Down to turn the Batting Cursor ON/OFF. See Total Control Batting in the Game Controls section for more details.

USER RECORDS

Using User Records is a way of keeping track of player stats. By selecting a team and assigning one of the user names that you have created to it, your game skill will be determined by the outcome of each player's stats. After each game, view player stats to see if your user's players appear as statistical leaders. Your user name will be shown next to each player on the list from your team. You can also save your user records to the MEMORY CARD. See MEMORY CARD for more information.

Create Users

Create up to eight users.

- Use the D-Pad to select a user number.
- Press  to edit a name.
- D-Pad Left/Right to highlight a letter.
- D-Pad Up/Down to select a letter.
- Press  when you are done editing a user name.
- Press  again to exit the screen.

User vs. User

Play in a 2-player game with both teams tagged with different users and compare their game statistics.

- D-Pad Left/Right to compare user records.

989 Sports® Tip: Keep track of player statistics by creating user names and assigning them to your team.

PREGAME

From Pregame, use the following menu options to customize your game setup.

- D-Pad Up/Down to highlight a bench player and press \times to insert him into the lineup.

To change the pitching rotation:

- D-Pad Left/Right to choose the PITCHING ROTATION category.
- D-Pad Up/Down to highlight a player to remove from the rotation and press \times to mark him for a move.
- D-Pad Up/Down to highlight a pitcher in the rotation or from the bullpen and press \times to switch the two players.

OPTIONS

Select this option to customize the attributes of your game.

- D-Pad Up/Down to select an attribute.
- D-Pad Left/Right to change the attribute.

Player 1-2 Levels (Rookie/Veteran/All-Star)

The player level will determine the fatigue factor, batting and pitching difficulty and fielding ability of players. All-Star has the most realistic player situations.

Player 1-2 Bat Cursor (On/Off)

The Bat Cursor is a feature of all difficulty levels. Use it to target the location of the pitch and make contact with the ball on the sweet spot of the bat. Just before the pitcher delivers the ball, the location of the pitch will be shown to you. Use the D-Pad to move the white Bat Cursor over the pitch location. When the ball is in range of the batting area, the white Bat-Cursor will turn red, indicating ball contact is inevitable.

Manager Mode (On/Off)

In season games, use Manager Mode to manage your team's roster while the computer plays the game for you.

Innings (1-9)

Set the length of the game by choosing the number of innings to play.

DH (Auto/On/Off)

If you like using a Designated Hitter, select ON to bolster any team's offensive attack. To let the game determine when the DH is used, select AUTO.

Auto Fielding (On/Off)

Turn this option ON for your defense to field the ball automatically.

Auto Sliding (On/Off)

Turn Auto Sliding ON to have your base runners automatically slide.

Auto Lead Off (On/Off)

Turn Auto Lead OFF to have your base runners automatically or manually take a lead from the base that they occupy.

Fielding Aid (On/Off)

Use the Fielding Aid to position your fielder to make the play after the ball is hit.

Time of Day (Auto/Day/Night)

Set the Time of Day of a game. To let the game determine the time, select AUTO.

Errors (On/Off)

With Errors ON, the players on the field are subject to committing errors.

Injuries (On/Off)

With Injuries ON, while in a season, players are subject to injuries during the game.

Alternate Uniforms (Auto/Home/Away/Both)

Use Team Uniforms to determine your team's uniform style.

Wind (On/Off)

With Wind ON, notice the small yellow arrow on the game screen labeled with a number. This indicates the miles-per-hour of the wind; blowing in the direction the arrow is pointing.

Radar Gun (On/Off)

Turn Radar Gun ON to show the speed of the pitch.

Distance Meter (On/Off)

Turn Distance Meter ON to show the distance in feet of the flight of home runs.

Call Text (On/Off)

Turn Call Text ON to show umpire calls during the game on the playing screen.

Batting View (Low/Low 1/Low 2/Medium/High)

Set the desired level of the batting view. This option can be altered during the course of the game. Press the SELECT button to change the Batting View during game play or press the START button and use the Pause Menu to alter the view.

Fielding View (Low/Medium/High)

Set the Fielding View of the defense.

Crowd Volume

Use this option to adjust the volume of the crowd noise.

Sound Effects Volume

Use this option to adjust the sound effects volume.

Announcer Volume

Use this option to adjust the volume of the Announcer.

Music Volume

Use this option to adjust the volume of the game music.
